

Connectors

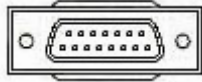

Video Monitor Connectors

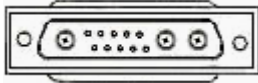

HPDB15 (HD15 or VGA) for PC VGA monitors.

DB9 Connector; used on older monochrome, CGA, and EGA monitors.

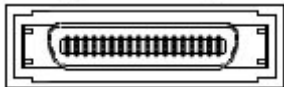

DB15 for Macintosh computers and Joystick ports.

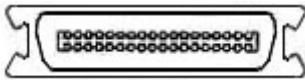

DB13W3 (for Sun Microsystems).

Printer Connectors

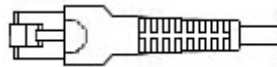

HPCN36; used on some newer Hewlett-Packard printers.

Centronics 36 (CN36); Used on most standard inkjet and laser printers.

Network Connectors

RJ45 Connector; used on CAT-5, CAT-5 E, and CAT-6 Ethernet cables.

Keyboard Connectors

MinDin6 (PS/2) Used on PC Compatible computers.

Din5; Used on older PC Compatibles. Sometimes called AT Keyboard connector.

MinDin4; Serial for Macintosh computers.

Mouse Connectors

MinDin6 (PS/2) Used on PC Compatible computers.

DB9 Serial mouse. Used on older PC compatibles.

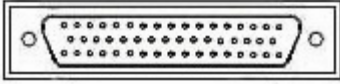

SCSI Connectors

Centronics 50 (CN50); Used on some older SCSI II cards.

Half Pitch Centronics 50 (HPCN50); Not often used; used by some digital cameras and notebook docking stations.

DB50; SCSI connector on Sun Microsystems computers.

HPDB50; Used on most SCSI II cards and external devices.

IDC 50; Used as an internal connector, primarily for SCSI II hard drives.

VHDCI68; a newer 0.8mm connector, used by many servers and RAID array controllers.

HPDB68; used on most SCSI III cards and SCSI III hard drives.

HDI30; SCSI connector in Macintosh Powerbook computers.
